VOCs

Efficiently attain your VOCs:

If you hold a current or older qualification that is equivalent to the current versions, then receiving a VOC is a simple process that confirms your knowledge and abilities to meet current standards.

If you hold an older qualification that has no equivalence, then an individually tailored process of up-skilling or up-grading may be required.

You can send a copy of your qualifications through to one of our friendly staff, they will be able to help you identify your requirements and select the appropriate option.

Industry Recognised
Verification of
Competency (VOC)
for Civil Construction
workers.

VOCs are available for:

RIIMPO317F	Conduct roller operations
RIIMPO318F	Conduct civil construction skid steer loader operations
RIIMPO320F	Conduct civil construction excavator operations
RIIMPO321F	Conduct civil construction wheeled front end loader operations
RIIMPO337E	Conduct articulated haul truck operations
RIIWHS201D	Work safely and follow WHS policies and procedures
RIISAM204D	Operate small plant and equipment

Eagle Wing Education and Training is a Registered Training Organisation (RTO ID 91365).

We ensure that all our VOC Assessments and training are aligned to the latest standards.

There are multiple pathways available depending on your circumstances. From simple verification for experienced operators with current documents, through to full training, assessment, and issuance of a nationally recognised Statement of Attainment.

 **EAGLE WING**
EDUCATION & TRAINING

Why study with Eagle Wing Education & Training?

We provide tailored courses that are nationally recognised. They are accredited courses that are aligned to meet your specific requirements of education and training within the Civil Construction Industry.

Our trainers and assessors work within the industry and continuously develop their professional portfolios.

Our courses are rigorous and easy to implement with our project team conducting face-to-face sessions using appropriate methods of training and assessment that will deliver the best results for you.

We can provide recognition of Prior Learning (for people who have evidence to support their current competence in the relevant units of competency which comprise the qualification).

Industry experience enables our professional trainers and assessors to make courses easier to engage in.

After-all, training will only get the results if the execution is right!
