

RII40720

Certificate IV in Civil Construction

The RII40720 Certificate IV in Civil Construction (Pipe Laying) reflects the role of individuals working in supervisory and technical specialist positions in civil construction. The individual may perform tasks involving a broad range of varied work activities most of which are specialised and within known or changing contexts. They are responsible for the quantity and quality of their own work, as well as for the output of others. They contribute to the development of technical solutions to non-routine problems.

KEY OUTCOMES

- Implementing and monitoring WHS and applying risk management systems.
- Demonstrating leadership and applying communication strategies.
- Supervising civil works and civil works contractors.
- Providing first aid.
- Obtaining samples.
- Coordinating operational plans
- Continuous Improvement

Volume of Learning

Learners should expect a duration between 6 and 24 months to meet the requirements of RII40720 Certificate IV in Civil Construction, which is consistent with the AQF volume of learning indicators for a Certificate IV qualification. This may vary depending upon prior experience and study.

Decisions about the duration of this qualification consider the candidates' likelihood of successfully achieving the learning outcomes and ensure that the integrity of the qualification's outcomes are maintained.

MODES OF DELIVERY

- Face to face workshops
- Online
- Workplace

QUALIFICATION PATHWAYS

- RII50420 – Diploma of Civil Construction Management

Note: This RTO may not offer any pathways listed above.

CAREER OPPORTUNITIES

- Civil Construction Supervisor
- Civil Construction Operations Worker
